## NSW GOVERNMENT SCHOOLS CAPACITY UPDATE

Please note that the information provided below is correct to the best of our knowledge as of 14 March 2019, based on information received from NSW government schools.

Individual school requirements are listed under each school. School located in Sydney that are not listed are either full or ineligible to enrol international students. Schools located outside of Greater Sydney and Wollongong are classified as regional schools.

No capacity update is available for primary schools due to their large number and strict catchment areas. For enrolments into a NSW government primary school please contact a DE International staff member with a NSW address or location.

School catchment areas can be found at <https://education.nsw.gov.au/school-finder>.

There is no guarantee of placement at schools listed below. Please do not guarantee placement at any school to prospective students.

Region	School	2019	2020
